I am still receiving 2021 claims and won't have final numbers until sometime in March.

In calendar year 2021 we have exceeded \$300K for the first time but we have not exceeded our annual \$300K appropriation yet for the budget year. I am still waiting for BLS to respond with horse values on a couple of 2021 claims so our 2021 calendar year dollar totals will increase along with a few late 2021 claims submissions. Typically by the end of March we will have received all of the claims for the prior calendar year.

Agenda Item: Out of Country Travel Request

Background Info: Dr. Zaluski is requesting pre-approval to participate in an international program review team led by USDA to evaluate the administration of disease programs to determine if a country is eligible for importation of animals and animal products into the U.S.

The destination and dates have yet to be determined, but requests are typically short notice, so pre-approval is necessary to be considered. Participation in a program review benefits DOL because:

- It provides insight into the auditing process for allowing international imports – DOL has at times been asked for comment on imports from Brazil and other trading partners.
- The process allows us to access Montana’s disease programs relative to an international standard to address shortcomings.
- A program review presents an excellent educational opportunity

Travel costs including per diem are covered by USDA. Wages would be covered with agency funds.

Recommendation: approve travel for 1 to participate

This meeting is an opportunity to collaborate with other states on policy that impacts animal health issues in our respective western states. This year’s meeting will be in June in Bellingham, WA, June 5-8.

Department of Livestock**1) Division**
Animal Health & Food Safety**2) Employee(s) Traveling**

Dr. Marty Zaluski is requesting pre-approval to participate in an international program review team led by USDA to evaluate the administration of disease programs to determine if a country is eligible for importation of animals and animal products into the U.S.

3) Justification

Participation in a program review benefits DOL because:

- It provides insight into the auditing process for allowing international imports – DOL has at times been asked for comment on imports from Brazil and other trading partners.
- The process allows us to access Montana's disease programs relative to an international standard to address shortcomings.
- A program review presents an excellent educational opportunity

Only state veterinarians are considered for state representation on review teams. Pre-approval is requested because USDA individuals selected for an international program review need to confirm availability on short notice which may not coincide with board meeting schedule.

4) Itinerary

It is anticipated that a program review, including travel would take one week. Destination to be determined.

5) Cost Estimate

Travel costs including per diem are covered by USDA.

Wages would be covered with agency funds.

Agenda Request Form

From: Martin Zaluski, DVM, Acting Milk and Egg Bureau Chief		Division/Program: Animal Health/ Milk and Egg Bureau			Meeting Date: January 26, 2022	
<u>Agenda Item:</u> Workload review						
The bureau is engaged in a workload review for the two sanitarians inspecting all milk and egg facilities in the State. The inspection work itself is at an acceptable level but the travel time between and to facilities can present challenges. Both inspectors have facilities located 4 hours away from their home base which becomes challenging should those facilities need help or inspections on short notice.

<u>Agenda Item:</u> General updates						
The rating of the NW MT BTU was completed as scheduled on December 29 th by a visiting SRO from ID. Three dairies were inspected, and the BTU passed.						
The Bureau has requested and received an extension for BTU 32-01 that is due February 10, 2022. This is a large BTU that includes 29 dairies and covers central Montana, from the hi-line to Yellowstone County. The rating will require our SRO to visit 25 of those 29 dairies. Staff had scheduled the ratings to take place the week of January 10 th , however, the inspector for that area was put under quarantine during that time. With Omicron variant infections of COVID rapidly increasing, staff felt it necessary to request more time to finish the rating to reduce risk of exposure to staff and producers.

I am still receiving 2021 claims and won't have final numbers until sometime in March.

In calendar year 2021 we have exceeded \$300K for the first time but we have not exceeded our annual \$300K appropriation yet for the budget year. I am still waiting for BLS to respond with horse values on a couple of 2021 claims so our 2021 calendar year dollar totals will increase along with a few late 2021 claims submissions. Typically by the end of March we will have received all of the claims for the prior calendar year.

The destination and dates have yet to be determined, but requests are typically short notice, so pre-approval is necessary to be considered. Participation in a program review benefits DOL because:		
<ul style="list-style-type: none"> • It provides insight into the auditing process for allowing international imports – DOL has at times been asked for comment on imports from Brazil and other trading partners. • The process allows us to access Montana’s disease programs relative to an international standard to address shortcomings. • A program review presents an excellent educational opportunity 		
Travel costs including per diem are covered by USDA. Wages would be covered with agency funds.		
Recommendation: approve travel for 1 to participate

Board of Livestock Meeting

Agenda Request Form

From: Martin Zaluski, DVM, Acting Milk and Egg Bureau Chief		Division/Program: Animal Health/ Milk and Egg Bureau			Meeting Date: January 26, 2022	
<u>Agenda Item:</u> Workload review						
<p>The bureau is engaged in a workload review for the two sanitarians inspecting all milk and egg facilities in the State. The inspection work itself is at an acceptable level but the travel time between and to facilities can present challenges. Both inspectors have facilities located 4 hours away from their home base which becomes challenging should those facilities need help or inspections on short notice.</p> <p>Recommendation:</p>						
Time needed: 10 min	Attachments:	Yes	No	Board vote required?	Yes	No
<u>Agenda Item:</u> General updates						
<p>The rating of the NW MT BTU was completed as scheduled on December 29th by a visiting SRO from ID. Three dairies were inspected, and the BTU passed.</p> <p>The Bureau has requested and received an extension for BTU 32-01 that is due February 10, 2022. This is a large BTU that includes 29 dairies and covers central Montana, from the hi-line to Yellowstone County. The rating will require our SRO to visit 25 of those 29 dairies. Staff had scheduled the ratings to take place the week of January 10th, however, the inspector for that area was put under quarantine during that time. With Omicron variant infections of COVID rapidly increasing, staff felt it necessary to request more time to finish the rating to reduce risk of exposure to staff and producers.</p> <p>Recommendation:</p>
