

**Montana Department of Livestock  
Trichomoniasis Virgin Bull Statement (BE-69)**

Montana's Trichomoniasis rules (ARM 32.3.502 ) require a statement of virginity for all sexually intact male bovines 12-24 months of age. The signatory(s) hereby certify that the animal(s) identified and described below are sexually intact male bovine(s) less than 25 months of age that have had no potential breeding contact with sexually intact females.

	Inspection or ID #	Age	Breed		Inspection or ID #	Age	Breed
1				9			
2				10			
3				11			
4				12			
5				13			
6				14			
7				15			
8				16			

**Original Breeder or Representative**
