Will this feedlot accept female cattle?* _____

I agree to the following requirements:

- All inspections for animals entering and exiting the feedlot under this program must be conducted by a state brand inspector.
- Animals entering the feedlot under this program shall only be released to slaughter. These animals shall NOT be used for breeding purposes. (Per ARM 32.3.212 (9)(c) and 32.3.501 (18) (c).)
- Bulls entering without a trichomoniasis test are considered to be positive animals.
- Prior to approval, Department of Livestock may require the premises to be inspected by a Montana state brand inspector.

EXPIRATION DATE:	_____

Facility:

- Unless a quarantine area is designated within the premise and on file with MDOL these rules will apply to the entire facility.
- Designated quarantine areas must be clearly marked with appropriate signage.
- Facilities may be inspected at any time for compliance by an authorized representative of the Montana Department of Livestock (MDOL).

Animals:

- All sexually intact animals must have official individual identification upon entry into this facility.
 - Approved forms of official ID include USDA metal NUES tags, RFID tags, a Montana brand and brand inspection or other forms approved by MDOL.
- Bulls must be kept at this facility a minimum of 30 days.
- Trichomoniasis test-positive bulls must be branded with a 'V' on the right tailhead.
- Bulls may not commingle with sexually intact female cattle.
- Bulls may be castrated at any time.
- All sexually intact animals leaving this facility must be consigned either directly to slaughter, to an approved feedlot, or through an approved livestock market for slaughter purposes only. (Per ARM 32.3.212 (10)(c) and 32.3.501 (18) (c).)
- *Only female cattle from trich positive or other herds with trich restrictions on them may be accepted into the quarantined portion of the facility.

Non-compliance with restrictions placed on bulls of unknown and positive trichomoniasis status may result in a review or revocation of this license.

Your feedlot information will be made available to parties requesting a list of Trichomoniasis Quarantine Feedlots.

As a licensed Trichomoniasis Quarantine Feedlot Facility, I must renew my application annually and this license will expire December 31st of the calendar year in which it was issued.
